NEW PATRIOTIC PARTY INITIATES PROCESSES TO EXPEL PROF. KWABENA FRIMPONG BOATENG FROM THE PARTY

The New Patriotic Party (NPP) has taken due notice of comments made by Professor Kwabena Frimpong Boateng during an interview on Channel One TV on Monday, 12th January 2026, in which he described the Party as a “fake party” and further stated that he no longer considers himself a member of the NPP.

In the same interview, Professor Frimpong Boateng made additional disparaging remarks about the Party and alleged, among other things, that the Party’s 2023 Presidential Primary was rigged in favour of His Excellency Dr. Mahamudu Bawumia, the NPP’s presidential candidate for the 2024 general elections.

The Party unequivocally rejects Professor Frimpong Boateng’s unfortunate characterization of the NPP and firmly denies his baseless and unsubstantiated allegations regarding the conduct of the 2023 Presidential Primary. The said primary has been widely acknowledged by all candidates who participated, as well as by well-meaning members of the Party, as having been conducted in a free, fair, transparent, and credible manner, faithfully reflecting the will of Party delegates.

The New Patriotic Party views the conduct and utterances of Professor Kwabena Frimpong Boateng as highly reprehensible and inimical to the values, unity, and integrity of the Party. Consequently, the Party has invoked the relevant provisions of its Constitution to commence the necessary processes to expel him from the Party, strictly in accordance with due process.

Signed:

JUSTIN KODUA FRIMPONG

GENERAL SECRETARY
