COCOSHE CALLS FOR CALM AMONG COCOA FARMERS

The National Executive Committee has taken note of recent, as well as planned demonstration by some Cocoa farmers following the recent adjustment in the producer price and delays in payments for produce sold to Cocobod.

We fully understand the concerns and frustrations of our members. Your welfare remains our top priority, and leadership shares in your disappointment.

However, we strongly urge all farmers to refrain from demonstrations and remain calm. The Association is actively engaging Government, the Ghana Cocoa board (Cocobod) and other stakeholders to address farmers' concerns and support the recovery and long-term stability of the cocoa sector.

We assure you that leadership is working tirelessly on your behalf, and we encourage all members to remain united, patient and focused on their farming activities while discussions continue.

Together, we will protect and strengthen our livelihoods.

May God bless our gallant cocoa farmers.

Thank you.

Alhaji Alhassan Bukari
(National Chief Farmer)
